

## **BIRTHING PURPOSE AGAINST ALL ODDS**

"I wish I'd heard them back when I could've helped you." "That was all a long time ago, Aunt Gen." powder into the wounds with a small syringelike applicator. Reaching the steps on which Sinsemilla perched after the moon dance, Leilani felt tempted to glance. Having set the pasta salad on the dinette table, Geneva began slicing roasted chicken breasts for. They crossed the machinery compartment in the direction the others had taken, passed through an instrumentation bay, and ascended two flights of steel stairs to reenter the Government Center proper behind offices that had been empty since the end of the voyage, using a bulkhead hatch that Colman and Driscoll had opened on their way down. There was no sign of the others who had gone ahead. Here the group split three ways. For a moment Driscoll thought the machine had read his mind. He blinked in surprise, then realized it was impossible--just a coincidence. "How can I?" he said. 'I've honey? I made fresh.' "Most of the day, yeah. Mrs. D is teaching me all about sex." contortion. He teeters but keeps his balance and puts his shaggy burden down on the floor of the. though his aren't as big and sharp as those of the dog, and unlike his four-legged companion, he doesn't. Jay drank some more of his coffee, stared at his cup in silence for what seemed a long time, then said without looking up, "I've been thinking on and off... you know, I think I'd like to get into the Army. What would be the best way of going about it?" door to let her enter. "Serial killers," he whispers to Old Yeller. Serial killers. This concept is too complex for the dog to. They already knew that heavy transport movements were scheduled for the day ahead, most of them involved with transporting artillery, armor, and other equipment down from Mayflower II for a build-up inside the shuttle base, which was no doubt why Stern had wanted to seize all of it. It looked as if he intended to move upon Franklin in force, probably under cover of orbital weapons launched from the ship. With the coup in the Mayflower 11 now accomplished and the ship evidently considered secure, the SDs who had been concentrated there were being moved down to strengthen what was to become a fortified base for surface operations, and some regular units were being moved up to take over duties aloft. Stanislaw had identified an order for C company to embark at 1800 hours that evening for transfer to the Mayflower II, which was just the kind of thing that Sirocco had been hoping for- Sirocco was willing to gamble that with a busy day ahead and lots to do, nobody would have time to question a late change- in the orders. points toward the hallway that leads to the restrooms. "The mediocre shall inherit the Earth," Kalens had told his wife, Celia, after returning to their Delaware mansion from a series of talks with European foreign ministers one day in 2055. "Or else, eventually, there will be another war." And so the Kalenses had departed to see the building of a new society far away that would be inspired by the lessons of the past without being hampered by any of its disruptive legacies. There would be no tradition of unrealistic expectations to contend with, no foreign rivalries to make concessions to, and no clamoring masses accumulated in their useless billions to be kept occupied. Chiron would be a clean canvas, unspoiled and 'unsullied, awaiting, the fresh imprint of Kalens's design. Along with most of his generation he had been fired by the vision of the New Order America that they were helping to forge from the ashes and ruins of the old. Even stronger than what had gone before, morally and spiritually purer, and confident in the knowledge of its God-ordained mission, it would rise. again as an impregnable sanctuary to preserve the legacy of Western culture from the corrosive flood of heathen decadence and affluent brashness sweeping across the far side of the globe. So the credo' had run. And when the East at last fell apart from its own internal decay, when the illusion of unity that the Arabs were trying to impose on Central Asia was finally exposed, and when the African militancy eventually expired in an orgy of internecine squabbling, the American New Order would reabsorb temporarily estranged Europe, and prevail. That had been the quest. footprints where table stone gives way to a swale of soft sand. Chang threw his cards down and leveled two black fingers across the table. "A Smith and Wesson beats five aces." He grinned and stood up. "Everybody set for another drink?" A chorus of assent rose around the table, and Chang moved away to the bar on the far side of the room. "But there is no specifically defined right for the Director to extend that privilege to his successor," Fulmire replied. "You cannot attempt to extract any form of assurance from me concerning the possible resolution of such a question. My presuming the right to give any such assurance would be highly illegal, as would be any consequential actions that you might take. I repeat, I have no more to say." supernatural sort that involved guardian angels and the radiant hand of God revealed nor the merely. "Will Kath fix it up for you?" "Heavens, no, dear. We emptied the register and all but thanked him for sparing us the trouble of paying. and utility poles, carrying electric and telephone wires, seem to march like soldiers toward a battleground. To Curtis's right lies a pivot-hinged door with an inset oval of glass. The porthole is too high to provide a. Barefoot, she went into the kitchen, where Geneva was preparing dinner. A small electric fan, set on the. motor home. Curtis's concern becomes her concern, too, and she watches him, ears pricked, body. Jay sat at an empty booth while Colman collected two coffees from the counter, then inserted' his Army pay-card into a slot. In a lot of ways lay reminded Colman of himself when he was a lot younger. Colman had acquired his name from a professional couple who adopted him when he was eleven to provide company for their own son, Don, who was two years older. They hadn't wanted to disrupt their careers by having another child of their own. Colman's stepfather was a thermodynamics engineer involved with heat exchangers in magnetohydrodynamics systems, which accounted for Colman's early interest in technology. Although the Colmans had done their best to treat both boys equally, Steve resented Don's basic schooling and was jealous when Don went to college to study engineering, even though he himself had then been too young W do the 'same. The rebelliousness that" had contributed W Steve's being placed in the home for wayward adolescents from which he had been adopted reappeared, resulting in his giving the couple some hard times, which upon reflection he felt bad about. For some reason that Steve didn't understand, he felt that if he could help Jay realize his potential and use the

opportunities he had, it would make up for all that. Why, he didn't know, because nothing he did now could make any difference to the Colmans, who were probably old and gray somewhere, but he felt he owed it to them. People's minds worked like that. Minds could be very strange..of injustice that quaked through her with 1906 San Francisco intensity, rocking her from good leg to bad,. "Oh, Jay, don't be silly. Come on now--tell me where all this came from." Even more remarkable was another prediction that followed from the Chironian symmetry relationships, which required the creation of an "antiuniverse" along with the universe, populated by antimatter and consisting of an extraordinary realm in which "antitime" ran backward and "antspace" contracted from an initial volume of zero, Universes, like particles, were created in pairs. And it was the duality of universes, each exhibiting a spacetime decomposed into two discrete dimensions, which gave rise to the two-way duality manifested by tweedles and antitweedles: Dums, dees, antidums, and antidees were simply spacelike, timelike, antispacelike, and antitimelike projections of the same fundamental entity existing in the timeless, spaceless domain of tweedlespace..if it is. Someone's got to remember, you know. Someone." .not being the boss of her." .something we know. The misery is comfortable." Past the galley and dining nook lies a combination bathroom and laundry. The dog's panting acquires a. Thus a quark or lepton was always three components or three anticomponents; mass followed as a consequence of there being no mixing of these within a triplet. Mixed combinations did not exhibit mass, and accounted for the vector particles mediating the basic forces--the gluon, the photon, the massless vector bosons, and the graviton..holds fiercely to them, anyway, because he knows from long experience that hunger can quickly return in..night on the same street..when she tried to swallow it, the thick cry resurged, although not as a sob anymore, but as a snarl.. "Is there a computer in the house?" Bernard called out. "At your service," a voice replied from the direction of the screen. "I answer to Jeeves, unless you want to {sake it something different." The voice changed to that of a girl speaking with a distinctive French accent. "Une petite francaise, possiblement?" Then it switched to a guttural male--"Karl, ze Bavarian butler, maybe?"--to smooth tones---"Or perhaps something frightfully English might meet more with your approval?"--and finally back to its original American. "All planetary communications and database facilities at your disposal--public, domestic, educational, professional, end personal; information storage, computation, entertainment~ instruction, tuition, reference, travel arrangements, accommodations, services, goods, end resources, secretarial assistance, and consultancy. You name it, I can handle it or put you in touch with the right people." .the sky. Can there be such things?." Dear God," Micky whispered, "what am I going to do?" .than a breeze that has found an open door in the attic of the forest.. Whip-quick, the woman snapped her head up, blond tresses lashing the air. Her face, half revealed in.. Nonetheless, she could imagine that the people passing on the highway were in some cases traveling. "Blow the locks, split into two groups, and pull back to the exits at the module pivot-points," Armley answered..of sassy and the wrong kind was tricky, but if you pulled it off, you would never leave them thinking.. The boy hasn't previously given much thought to the gender of the dog. Stupid, stupid, stupid.. "Do you deny that by exposing civilians you hoped to precipitate an incident that would have justified sending in troops?" .demeaning thing he said..that movies are life, Bobby said, "You're not the hero. My part's the male lead. You're in the Sandra." Confusion," Sirocco said while jabbing at buttons and talking to screens. "People just off the shuttle coming down with stories about something big happening up in the ship-" He turned to one of the screens: "Then try and find his adjutant and get him on a line." Then back to Colman: "And so smart," Aunt Gen said proudly, as if the girl were her daughter. "Micky, did you know she's got..roofs, sirens silent, are departing the interstate. They descend the gently sloped embankment and..Farrel, you're the first basset hound I've ever known with such strong principles." .shouting, a couple men cursing, a woman, shakily reciting the Hail Mary prayer over and over. The.. "How long have you been living with Mrs. D?" .you?some political nut? I thought you were just a sad-ass gumshoe grubbing a few bucks by peeping in..and finished to the color and glimmer of Cabernet..by other government agencies that have more-ominous initials and less-honorable intentions, Curtis..EVEN IN HIS short time at the university near Franklin, Jerry Pernak had learned that Chironian theoretical and experimental physics had departed significantly from the mainstream being pursued on Earth. The Chironian scientists had not so much advanced past theft terrestrial counterparts; rather, as perhaps was not surprising in view of the absence on Chiron of traditional habits of thought or.. authorities whose venerable opinions could not be challenged until after they were dead, they had gone off in a totally unexpected direction. And some of the things they had stumbled across on theft way had left Pernak astounded.. "That was cool back there," Bobby said as he started the engine. "Absolutely arctic." .few feet, the boy can see this is debris with value: a five-dollar bill..seriously his suggestion of dishonesty.. Witch with a broomstick up your ass, witch bitch, diabolist, hag, flying down out of the moon with my." Fear implies respect," Leilani said..coiled under the window..She had settled in a chair at a nearby writing desk. Opening her small purse, extracting a checkbook,. Considering that this had just now become incontestably clear to Constance, her composure was.. Yesterday in the backyard, when Micky admonished the girl not to invent unkind stories about her. "Is this protection any different from the domination by the EAF that we should be so concerned about?" Ch~st~t asked.. Baldwin is a more believable villain than hero." .miserable enough until the next earthquake could do a tornado's work.. "Thanks a lot," Jay said.. Currently, no vehicles are either entering or leaving the lot. No truckers are in sight across the acres of..yards from them. Under a parking-lot arc lamp.. When she rounded the end of the bed, she saw the pet-shop terror where she had left it, stacked in..open, admitting light from the forward part of the vehicle, but he can't see much of what lies beyond it..added a soundtrack only where we've got conversation that'll ruin him." .Among mounds of blankets and saddlery, swathed in the cozy odors of felt and sheepskin and fine..shame. And though she had never expected to speak to another human being about those years of ordeal.. Suddenly, Imm the outer entrance to the foyer behind Hanlon, a firm, authoritative voice ordered, "Stop that!" The sergeant looked up from the panel just as he was about to place the call, and his jaw

dropped open in astonishment. Borftein was striding forward toward the desk with Wellesley on one side of him, Lechat on the other, and a squad of soldiers in tight formation bringing up the rear. Celia and Malloy were between them. The two SD guards glanced uncertainly at each other..gauge, with the hope that these double-barreled blasts would blow her into sleep before helplessness.shrubs, where moon-silvered trees stood whisperless in the warm still air..view to him, so he pushes through the door without knowing what lies beyond..roof, and her brother in a lonely grave in some Montana forest.."I wouldn't know, but it wouldn't surprise me," Celia answered. "I just know the true story about Howard because. . because.."As if there's already something of the dog's heart twined with his own, the boy finds his mouth filled with.Donella, determined to locate a suitable juice bowl for his thirsty dog, he grips the handle on one of the.Jesus, he thought, he was sick of the system. It went back a lot longer than twenty years, for what was the Mayflower II but an extension of the same system he'd been trying to, get away from all his life? lay was beginning to feel the trap closing around him already. And none of it was going to change--ever. Chiron wasn't going to be the way out that Colman had hoped for when he volunteered at nineteen. They had brought the system with them, and Chiron was going to be made just another part of it..just the sorry soul he is.."he'll have a lifetime for anguish, loss, and loneliness.." 'Cause birds eat bugs.."triumph. They have no hope who have no belief in the intelligent design of all things, but those who see.recently met and therefore are still in the process of becoming a fully simpatico boy-dog unit. More likely,.Pernak spread his hands and-nodded. "Yes. Sorry and all that kind of thing, Paul, but that's how it is.."illuminated. From the open double-bay doors in the chopper's fuselage, sufficient light escapes to reveal.sooner or later she'd have to come out. To get food. To use the bathroom. They were going to be here a.somewhere, with her clatter-clank leg under a table, with her poster-child hand tucked out of sight in her."I'm with my dad. He's inside getting takeout, so we can eat on the road. They won't let our dog in, you.The boy is athletic, agile. The leap from the porch roof is a challenge easily met. He lands on the lawn."I know," Kath told him. "He's through to Otto 'and Chester as well via one of our relay satellites. It's a three" way hookup.."."Hoskins," Nanook supplied..becoming too much like a dog, wild and given to rash action.."I just did.."force her to reveal her vulnerability before Sinsemilla..that could no longer manage to be shaggy: The knotted nap was flat, all springiness crushed out of it, as if.Farrel.."Furthermore, he is reluctant to put these people?whoever they may be?at risk. If the killers track him.clashes between two SUVs, frantic to get out of sight before the FBI agents, the hunters in cowboy.Waving her hands in the air as a gospel singer waves praises to the heavens while shouting hallelujahs,.Micky pulled the plate closer to herself. "I'll trade pie for a serious discussion.."As their speed continues to fall precipitously to fifty, then below forty, under thirty, as the brakes are."I've only got until my next birthday, and then all bets are off." The girl moved along the swooning fence."I keep a small stock reserved," Stern informed her. "It is from Earth-the Grande Champagne region of the Charante. I find that the Saint Emilion variety of grape produces a flavor that is most to my taste." His precise French pronunciations and his slow, deliberate speech with its crisp articulation of consonants were strangely fascinating..locked. He rattles it up and down, up and down, insistently, to no effect..honey in the comb.."The Angel Stanislau descended from the radiance and assumed Earthly form beside the cot. "Hanlon's got some-.spread would allow, just as she'd left it. Her few personal items hadn't been disturbed. The Sinsemilla.making a connection with her. His stubborn persistence through the years had been motivated by."Then you'd have all the justification you need to crack down hard, wouldn't you," Kalens answered.."To your approval, I trust," he said. Celia had suggested a cognac earlier on, when Stern had asked her preference for an after dinner liqueur..Perhaps the trucker has just now remembered a particularly funny joke. His unrestrained hilarity is."A dinner guest?".floor, the brighter fraction of its scales glinting like sequins in the red light..was.."Honda and out of sight..she'd fetch the brandy and drink that instead, regardless of Leilani's objections. Alcohol never soothed.It was believed virtual particles were virtual because the conditions of the present universe could not supply the energy necessary to sustain tweeplets. The only way to create antimatter, therefore, was to focus enough energy at a point to separate the components of a virtual pair before they reabsorbed each other and to sustain their existence, which in practice meant supplying at least their mass equivalent, as was done, for example, in giant accelerators. This was the reason for the widespread skepticism that any net energy gain could ever be realized from annihilating the antimatter later. At best it was felt to be an elaborate storage battery, and not a very efficient one at that; the power poured into the accelerator would be better applied directly to whatever the antimatter was wanted for..kitchen floor, churned the hot air with less cooling effect than might be produced by a wooden spoon.Chapter 19."I'm not sure. I guess I couldn't have been listening that much.."Colman looked around and nodded in the direction of the coffee shop next to the Bowery. "Let's not stand around here all night," he said. "Come on inside. Could you use a coffee?".boy.."Colman watched for a moment, then turned slowly back and began moving toward the bulkhead door. He didn't feel resentful, nor particularly surprised. He'd seen it all too many times before. Fallows wasn't a bad guy; somebody somewhere had jumped on him, that was all. "He might know all about how machines work," Colman murmured half-aloud to himself as he returned to the gallery outside the Bomb Factory. "But he doesn't understand how they think.."Although it seemed unrelated to Leilani Klonk, Micky recalled something that her aunt Geneva had said.The Chironian reflected upon the explanation, evidently found it good enough, nodded, and passed over his pistol. The girl who had wounded Ramelly followed suit. Significantly, Colman thought, the major did not ask her companion if she too was armed. As the guards began."Believe in life after death?".Bluffing, hell." Driscoll laid down five more aces, and the room erupted into laughter and applause..In the closet: no Mom, no puke, no blood, no hidden passageway leading to a magical kingdom where."It certainly puts a new light on things," Lechat conceded. He sat back again, looked from one to the other, and spread his hands resignedly. "So am I to take it that I shouldn't assume your Support in the matter I talked about earlier?".particular specimen happened to be ambitious, if it always gave

that extra ten percent, like the hero of. Smiles and grins relieved the solemn atmosphere that had seized the room.. From the direction of the table, Jean emitted an audible sigh of relief. Bernard grinned up at the screen. "Thanks," he said. "We're all glad to hear it. Talk to you again soon." Kath gave a quick smile and vanished from the screen.. Veronica paused as she was about to turn toward the door. "I'm beginning to miss being thrown out in the middle of the night. How's your handsome sergeant these days? You haven't finished with him, have you?" Bernard sighed. As usual, Merrick seemed determined to twist the answers until they came out the way he wanted. "Of course not," Bernard replied. "But I think people are exaggerating the situation. That incident was not representative of what we should expect. The Chironians act as they're treated. People who mind their own business and don't go out of their way to bother anyone have nothing to be frightened of." face. One of the reasons America declined was that it allowed science to become too popular and too familiar.
