

BUILDING TOGETHER COLLABORATIVE LEADERSHIP IN EARLY CHILDHOOD SYSTEMS

"He does that," the cowboy said to Gift. "Talks at em." He was amused, disdainful. He was one of feeling was agreeable. There must have been a number of people in the park: I heard whispers. The head of the giant rolled its eyes, reeled, looked at me as if it were having great fun, then nights, brooding on where and how he might extend his empire. She turned away from him and then and went on up the hill in the gathering darkness. As she went farther from them they saw her then, all of them, the great gold-mailed flanks, the spiked, coiling tail, the talons, and the breath that was bright fire. On the crest of the Knoll she paused a while, her long head turning to look slowly round the Isle of Roke, gazing longest at the Grove, only a blur of darkness in darkness now. Then with a rattle like the shaking of sheets of brass the wide, vaned wings opened and the dragon sprang up into the air, circled Roke Knoll once, and flew. put him on a ship for Roke. They thought maybe the Masters there could tame him. "visit the Court of the King, I can take you there. But maybe you don't know the King I'm talking. Not long since, he had sent for Hound on some business, and when it was done the old man had said. "Worms," said the helmsman, the master's brother. He came back in the evening, lamer than ever, for of course San had walked him clear out into the Long Fields where most of his beeves were. Nobody had horses but Alder, and they were for his cowboys. She gave her guest a basin of hot water and a clean towel for his poor feet, and then thought to ask him if he might want a bath, which he did. They heated the water and filled the old tub, and she went into her room while he had his bath on the hearth. When she came out it was all cleared away and wiped up, the towels hung before the fire. She'd never known a man to look after things like that, and who would have expected it of a rich man? Wouldn't he have servants, where he came from? But he was no more trouble than the cat. He washed his own clothes, even his bedsheet, had it done and hung out one sunny day before she knew what he was doing. "You needn't do that, sir, I'll do your things with mine," she said. "Your dad says not." figure out whether they had something to do with the traffic and its regulation. "But she was only a girl like the others, too," Mead said, and hid her face. "A good girl," she whispered. "Why not? What's more yourself than your own true name?" "You might keep some goats," Silence said. The tune ended. "Darkrose," he said, behind her in the dark. She turned her head and looked at. "Sit down," said Hemlock. After a moment Diamond took the stiff, high-backed chair facing

Streamlined, like. They walked past the roaster tower, past the old shaft and the new one, on into the long valley where Otter had taken Licky the first day he was there. It was late autumn now. The shrubs and scrubby grass that had been green that day were dun and dry, and the wind rattled the last leaves on the bushes. To their left a little stream ran low among willow thickets. Tall reeds rose up close beside the paths, so that if a light shone. By that time there were many people of the Hand who knew what was afoot on Roke. Young people came there sent by them. Men and women came to be taught and to teach. Many of these had a hard time getting there, for the spells that hid the island were stronger than ever, making it seem only a cloud, or a reef among the breakers; and the Roke wind blew, which kept any ship from Thwil Bay unless there was a sorcerer aboard who knew how to turn that wind. Still they came, and as the years went on a larger house was needed for the school than any in Thwil Town. Under Roke's steadily growing influence, wizardry was shaped into a coherent body of knowledge, without ceremony by ordinary people speaking Hardic; but practitioners of magic speak even such. locked in its muteness. faded and then darkened into grey as clouds swept again across the mountain and hid the rising. The belief that a wizard must be celibate was unquestioned for so many centuries that it probably came to be a psychological fact. Without this bias of conviction, however, it appears that the connection between magic and sexuality may depend on the man, the magic, and the circumstances. Often her mind here seemed empty of thought, full of the forest itself, but this day memories came to her, vivid. She thought about Ivory, thinking she would never see him again, wondering if he had found a ship to take him back to Havnor. He had told her he'd never go back to Westpool; the only place for him was the Great Port, the King's City, and for all he cared the island of Way could sink in the sea as deep as Solea. But she thought with love of the roads and fields of Way. She thought of Old Iria village, the marshy spring under Iria Hill, the old house on it. She thought about Daisy singing ballads in the kitchen, winter evenings, beating out the time with her wooden clogs; and old Coney in the vineyards with his razor-edge knife, showing her how to prune the vine "right down to the life in it"; and Rose, her Etaudis, whispering charms to ease the pain in a child's broken arm. I have known wise people, she thought. Her mind flinched away from remembering her father, but the motion of the leaves and shadows drew it on. She saw him drunk, shouting. She felt his prying, tremulous hands on her. She saw him weeping, sick, shamed, and grief rose up through her body and dissolved, like an ache that melts away in a long stretch. He was less to her than the mother she had not known.. Dragonfly rolled her head round on her neck, stretching till the vertebrae cracked, stretching out. There was silence.
