

THE ART OF BEING POETICS OF THE NOVEL AND EXISTENTIALIST PHILOSOPHY

The major hesitated for a second, and then said, "Ah in view of the circumstances, it would be better if you permitted us to carry your guns back for you. Would you mind?". But Colman felt that he did belong here--among the machines. He understood them and talked their language, and they talked his. They were talking to him now in the vibrations coming through his suit. The language of the machines was plain and direct. It had no inverted logic or double meanings. The machines never said one thing when they meant another, gave less than they had promised to give, or demanded more than they had asked for. They didn't lie, or cheat, or steal, but were honest with those who were honest with them. Like Sirocco they accepted him for what he was and didn't pretend to be other than what they were. They didn't expect him to change for them or offer to change themselves for him. Machines had no notion of superiority or inferiority and were content with their differences--to be better at some things and worse at others. They could understand that and accept it. Why, Colman wondered, couldn't people?. Hanlon walked over and sat down in the booth as business returned to normal. "They hew you were here, Steve. I heard them talking in the back of Rockefeller's. So I thought I'd come back down and hang around.". lousy cook.". "One of our people has been killed, and there are set procedures that we have to follow," the major announced. "My orders require me to take you three back with us. It would make things a lot easier for everybody if you complied. I'm sorry, but I don't have any choice.". Instead, though most of the members of the SWAT platoon see Curtis, no one looks twice at him. Scant. "Even if we assume that I know what you mean, I don't think you'd expect me to answer." So now they both knew, and knew that the other knew. Each had tested the other's discretion, and both of them respected what they had found. Nothing more needed to be said.. "Coffee?" Geneva inquired.. Bernard's eyes widened incredulously. "But if the Kuan-yin isn't finished, then what made the crater in Remus?". "Oh, Mrs. D, I disagree. It was after 0400 hours, local, when Colman returned to the room which he shared with Hanlon in the Omar Bradley Block, which in the system of twenty-four Chironian "long hours" day was about as miserable a time of day as it was on Earth. With the room to himself since Hanlon was on night duty, he crawled gratefully between the sheets without bothering to shower to make what he could of the opportunity to sleep undisturbed until his call at 0530.. Dark with clotted blood, the holes no longer oozed.. "The build-up at Canaveral is proceeding on schedule and will be completed before midnight," he informed Sterm at a midday staff meeting in the Columbia District's Government Center. "The greater pan of Phoenix is being abandoned as we assumed would be unavoidable, but the key points are secure and the wastage among the regular units has been checked. Transfer of SD forces to the surface will be completed by early evening, with the exception of those units being held to cover the Battle Module, the Columbia District, and Vandenberg. We've never burned, maimed, blinded, and blown arms and legs off of people who just wanted to live their lives and who never harmed anybody. We've never shot anyone who didn't ask for it. Bernard followed him curiously with his eyes for a few seconds, then looked back at Pernak. "But it's a hell of a thin case for shipping everyone off to Iberia, isn't it? And besides, if you're right, then I'd have thought the best place to stay would be right here-all mixed up together with the Chironians. That way nobody's likely to start throwing any big bombs around, right?" He turned his head to grin briefly at Jean. "I think Jerry made my point..". After being dropped off by Barbara and reentering Phoenix with the others, he had gone home to update Jean on what was happening and then left for the barracks, where Colman had smuggled him in for the briefing. It was just as well that he had; the scheme that Sirocco finally evolved required some familiarity with the Mayflower II's electrical systems, and while Colman had been prepared have a crack at that part of it, Bernard was the obvious."Sirocco, D Company commander, Second Infantry Brigade. Is your commanding officer there?". "Alec.Sterm nodded slowly in satisfaction. "Excellent. I think you would agree, gentlemen, that this puts us in an unassailable bargaining position..".Lechat pursed his lips for a second, and then nodded curtly. "It do it," he said simply. He averted his eyes for a moment longer, and then looked across at Celia. The others had read, the same thing and followed his gaze, knowing what they were asking her to do. Colman could see the torment in her eyes as she looked back at Lechat. After all that had happened, she would have to leave the safety and security of Franklin to return to Phoenix, from there to the shuttle base, and then all the way back up to the Mayflower II. There was no other way.. "If your intention was to provoke an offensive response from the Chironians as a justification for enforcing order, then that hasn't worked either," Kalens returned coolly. "Now we must live with the damage and consider our alternatives..". "maybe you'll realize your palm-shaded terrace isn't in Heaven..".Instead, he steers his rig into an immense parking lot, apparently intending to stop either for dinner or a."We're all having to lean how to do that..". "I'm not sure that I agree as much as I thought," Kalens told him. "Sterm may have a point. We should try it his way to begin with at least. Sterm inquired curiously, although Celia couldn't avoid a feeling that he already knew the answer. She shook her head. "Where are you supposed to be?".He is pleased by his ability to function in spite of his fear. He's also pleased by his resourcefulness..Although everybody had been expecting the announcement, a tension had been building as the room waited for

the words that would confirm the expectations. Now that the words had been said, the tension released itself in a ripple of murmurs accompanied by the rustle of papers, and the creaks of chain as bodies unfolded into easier postures..Sadness found a surprisingly easy purchase in Geneva's smooth, fair, freckled face. "He was so." "Me?" Jay exclaimed. 'I'll come long, sure, but I thought it was you who couldn't resist it.' Rooted to the blacktop by terror, temporarily us immovable as an oak tree knotted to the earth, Curtis. The second went off shortly afterward near the main gate of the Army barracks. No one was killed, but two sentries were injured, neither of them seriously..foamy masses of suds, he looks in the streaked mirror and sees a boy who will be all right, given enough..suddenly found themselves even closer than ten minutes to paradise.. "Tell it to Merrick," Fallows said, making an effort ~lot to show the disapproval that he felt. Talking that way betrayed a sloppy attitude toward engineering. Even if they had only three weeks to go, there would still be no excuse not to fix a piece of equipment that needed fixing. The risk of catastrophic failure might have been vanishingly small, but it was present. Good practice lay with reducing possibilities like that to zero. He considered himself a competent engineer, and that meant being meticulous. Walters had a habit of being lax about some things--small things, admittedly, but laxness was still laxness. To be ranked equally irked Fallows. "Log change of watch duty, Horace," he said to the grille on the console. "Officer Fallows." "All of them." Shirley sounded mildly surprised. Not good, not..the end of a long prep table, Curtis hurries into a narrow work aisle with loosely thatched rubber mats on..Just then, two Chironian girls strolled around the corner from the narrow corridor. They looked fresh and pretty in loose blouses worn over snug-fitting slacks, and had lightweight stretch-boots of some silvery, lustrous material. One of them had brown, wavy hair with a reddish tint to it, and looked as if she were in her mid-thirties; the other was a blonde of perhaps twenty-two. For a split second, Driscoll felt an instinctive twinge of apprehension at the thought of looking ridiculous, but the girls showed no surprise. Instead they paused and looked at him not unpleasantly, but with a hint of reserve as if they wanted to smile but weren't quite sure if they should..already be dead.. "No offense taken," Noah said. "No sane person ought to have confidence in a guy whose business..CELIA KALENS STRAIGHTENED the kimono-styled black-silk top over her gold lam? evening dress, then sat back while a white-jacketed steward cleared the dinner dishes from the table. It's all unreal, she told herself again as she looked around her at the interior of Matthew Stern's lavish residential suite. Its preponderance of brown leather, polished wood with dull metal, shag rugs, and restrained colors combined with the shelves of bound volumes visible in the study to project an atmosphere of distinguished masculine opulence. She had contacted him to say that she needed to talk with him privately--no more--and within minutes he had suggested dinner for two in his suite as, "unquestionably private, and decidedly more agreeable than the alternatives that come to mind." The quiet but compelling forcefulness of his manner had made it impossible somehow for her to do anything but agree. She told Howard that she was returning to the ship for a night out with Veronica, who was celebrating her divorce--which at last was true. Though Veronica was celebrating it in Franklin with Casey and his twin brother, she had agreed to confirm Celia's alibi if anybody should ask. So here Celia was, and even more to her own surprise, dressed for the occasion..Another bite of pie. More joyless chewing. "I don't know.." "The countdown can be halted at any time," Stern informed them.. "Would it make any difference to your problem if I had?" Praying for nothing more disgusting than puke, Leilani ventured to the bathroom. This cramped..Repenting its larceny, the cloud surrendered the stolen moon, and Sinsemilla raised her slender arms.. "Oh, Micky B, you get it, all right. You're a smartie just like me. There's always too much going on in..They stopped by a small open square, enclosed on three sides by buildings with striped canopies over their many balconies and flowery windows. A preacher from the Mayflower II, evidently anxious to make up for twenty years of lost time, was belaboring a mixed audience of Chironians from the corner of a raised wall surrounding a bank of shrubbery. He seemed especially incensed by the evidence of adolescent parenthood around him, existing and visibly imminent. The Chironians appeared curious but skeptical. Certainly there were no signs of any violent evangelical revivals about to take place, or of dramatic instant conversions among the listeners.. "Me? Oh . . . name's Driscoll--Tony Driscoll." He licked his lips while he searched for a follow-up. "I guess." "It doesn't matter," Colman told him. "It's different in different places. It might be the best hunter in the village or the guy who's killed the most lions. It might be the way you paint your face. Through most of history it's been money. What you buy with it isn't important. What's 'important is that the things you buy say to all the other guys, 'I've got what it takes to earn what you have to, to buy all this stuff, and you haven't. Therefore I'm better than you.' That's what it's all about.." "Who are you?" he demanded. The formality had evaporated from his voice. "Are you in authority here? If so, what are your rank and title?"
