All magic practiced by women was called "base craft," even when it included practices otherwise called "high arts," such as healing, chanting, changing, etc. Witches were to learn only from one another or from sorcerers. They were forbidden to enter Roke School, and Halkel discouraged wizards from teaching women anything at all. He specifically forbade the teaching of any word of the True Speech to women, and though this proscription was widely ignored, it led in the long run to a profound, long-lasting loss of knowledge and power among the women who practiced magic..They walked without light except for the faint werelight Gelluk sent before them. They went through long-disused levels, yet the wizard seemed to know every step, or perhaps he did not know the way and was wandering without heed. Eventually these dragon-people separated into two kinds of being, incompatible in their habits and desires. Perhaps a long geographical separation caused a gradual natural divergence, a differentiation of species. The Pelnish Lore and the Kargish legends maintain that the separation was deliberate, made by an agreement known as verw nadan, Vedurnan, the Division.. I know why you led my servants only to the little lode,.The old wizard stood there. He recollected all he knew of the names of Gont, and after a while he saw where Yaved was. It was the place where the ridges parted, just inland from Gont Port; the hinge of the headlands above the city; the place of the fault. An earthquake centered there could shake the city down, bring avalanche and tidal wave, close the cliffs of the bay together like hands clapping. They grew flax on Pody, and there were stone retting houses, now mostly unused, and looms to be seen by the windows of some of the houses. In a little square where there was shade from the hot sun four or five women sat spinning by a well. And.left the Book of Names with a woman in the Ninety Isles for safekeeping..to absolute chastity, enforced by self-cast spells. At the school on Roke, the students lived.out into the rain to feed the chickens.. "Put your feet up to the fire," she said abruptly. "I have some old shoes of my husbands." It cost her something to say that, yet when she had said it she felt released, untied too. What was she keeping Bren's shoes for, anyhow? They were too small for Berry and too big for her. She'd given away his clothes, but kept the shoes, she didn't know what for. For this fellow, it would seem. Things came round if you could wait for them, she thought. "I'll set em out for you," she said. "Yours are perished."
